

Laboratory for Manufacturing and Productivity Fall Seminar Schedule

Laboratory for Manufacturing and Productivity
Engineering the Real World

October 03

Prof. Michael Gevelber
Department of Manufacturing Engineering
Boston University

Real-time Control for Improving Materials Processing Capabilities

October 17

Dr. Kenneth C. Cadien
Director of Innovative Technology
Intel Corporation

Optical Interconnects as Replacements for Cu Interconnects in Integrated Circuits

October 31

Prof. George Chryssolouris
Director, Lab. for Manufacturing Systems and Automation
University of Patras

Manufacturing R&D: A European Perspective

November 14

Prof. John Ziegert
Timken Chair in Design and Development
Clemson University

Applications of Parallel Kinematics in the Design of Precision Machines

November 28

Dr. Stephen Fantone
President
Optikos Corporation

Opto-Mechanical Challenges in Manufacturing and Metrology

Time: 12:00 pm

Room: 33-116

Pizza social to follow the seminar

Sponsored by the MIT Laboratory for Manufacturing & Productivity
